

# (1) Feedback

+ Format (personalized way)

- how to avoid duplication in the discussion

o Possible „optimal“ Format

- focus on single papers during the discussion

- mixing groups (not „static“)

- longer resume, more discussion, questions to the author

- more time for discussing the overall topics → Resume? Separate discussion?

- paper distributing in advance

so that people can prepare?  
(no deadlines?)

- more output than papers  
(e.g. solving a problem)

- number of papers and dining is right

+ add contact data in the workshop folders
